

Project Design Phase-II

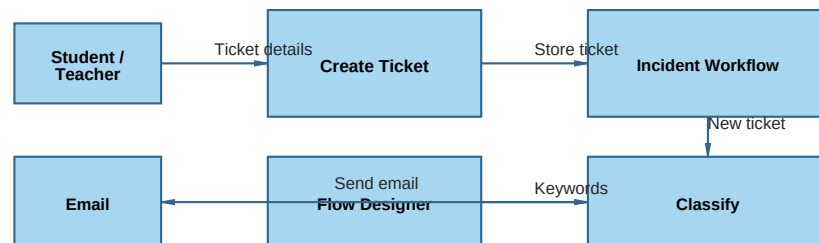

Data Flow Diagram & User Stories

Team ID	SWTID-2026-7595
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	4 Marks

Data Flow Diagrams:

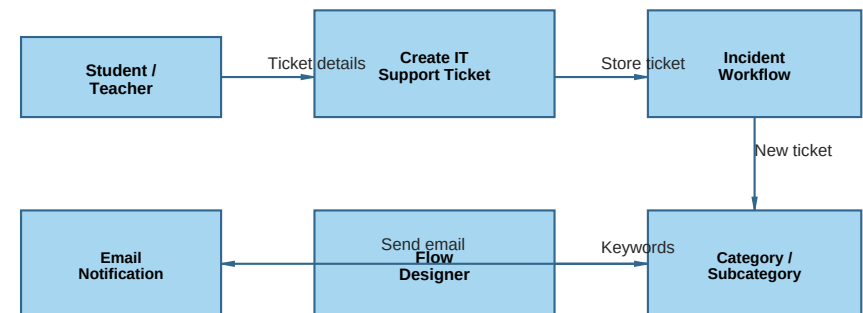

The DFD represents the flow of a school IT support ticket from the student or teacher to the ticket system. The ticket is stored, classified by Flow Designer using keywords, and followed by an email notification to the caller.

Example: [\(Simplified\)](#)

1. Student/Teacher enters Caller Name and Short Description.
2. The ticket is stored in the Incident Workflow table.
3. Flow Designer checks keywords: WiFi, Projector, Password/Login, Slow/Hanging.
4. Category and Subcategory are assigned automatically.
5. A confirmation email is sent to the caller.

Example: DFD Level 0 (Industry Standard)

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Student / Teacher	Ticket Creation	USN-1	As a user, I can create an IT support ticket by entering caller name and short description.	Ticket is created and stored in Incident Workflow.	High	Sprint-1
Student / Teacher	Auto Classification	USN-2	As a user, I can have my ticket automatically classified from the issue description.	Category and Subcategory are assigned.	High	Sprint-1
Student / Teacher	Wi-Fi Issue	USN-3	As a user, I can report a Wi-Fi or network issue and have it classified.	Category: Network; Subcategory: Wi-Fi.	High	Sprint-1
Student / Teacher	Projector Issue	USN-4	As a user, I can report a projector issue and have it classified.	Category: Hardware; Subcategory: Projector.	High	Sprint-1
Student / Teacher	Password / Login	USN-5	As a user, I can report a password or login issue and have it classified.	Category: Access; Subcategory: Forgot Password.	High	Sprint-1
Student / Teacher	Performance Issue	USN-6	As a user, I can report a slow or hanging computer issue and have it classified.	Category: Performance; Subcategory: Slow Computer.	High	Sprint-1
Student / Teacher	Email Notification	USN-7	As a user, I can receive an email after submitting a support ticket.	Confirmation email is sent to caller.	Medium	Sprint-1
IT Staff	Ticket Data Storage	USN-8	As an IT staff member, I can store ticket details in a structured table.	Ticket fields are stored accurately.	High	Sprint-1
IT Staff	Dependent Classification	USN-9	As an IT staff member, I can maintain Category and Subcategory dependency.	Valid Subcategory options match the Category.	Medium	Sprint-2
