

Define CS, fit into CC	1. CUSTOMER SEGMENT(S) CS - Students and teachers using the school IT helpdesk. - IT staff who review and route support tickets.	6. CUSTOMER CONSTRAINTS CC - Multiple incident requests arrive daily. - IT staff currently classify tickets manually. - Issue descriptions vary by user. - The solution should be easy to maintain and scalable.	5. AVAILABLE SOLUTIONS AS - Manual ticket review and categorization by IT staff. - ServiceNow incident/ticket form for recording requests. - Manual communication with callers after ticket creation.	Explore AS, differentiate
Focus on J&P, tap into BE, understand RC	2. JOBS-TO-BE-DONE / PROBLEMS J&P - Identify the issue type from the ticket description. - Assign the correct Category and Subcategory. - Create standardized ticket records. - Notify the caller after ticket creation.	9. PROBLEM ROOT CAUSE RC The helpdesk receives repeated requests for network, hardware, account-access, and performance issues. Manual review is time-consuming, error-prone, and difficult to scale as request volume increases.	7. BEHAVIOUR BE Users create a support ticket by entering the Caller Name and Short Description. IT staff otherwise need to review the description, select the category/subcategory, and communicate ticket creation.	Focus on J&P, tap into BE, understand RC
Identify strong TR & EM	3. TRIGGERS TR - Wi-Fi / network connectivity issue - Projector failure - Password or login problem - Slow or hanging computer	10. YOUR SOLUTION SL ServiceNow Flow Designer automatically classifies a new Incident Workflow record by checking predefined keywords in the Short Description. It sets Category and Subcategory, then sends an email notification to the caller. The solution is no-code and maintainable.	8. CHANNELS of BEHAVIOUR CH - Submit an IT support ticket through the ServiceNow form. - Enter Caller Name and Short Description. - Receive an automated ticket-confirmation email.	Extract online & offline CH of BE
	4. EMOTIONS: BEFORE / AFTER EM Before: uncertain about issue classification and ticket handling. After: ticket is consistently classified and creation is confirmed by email.		- School IT helpdesk receives and handles support requests. - IT staff can work from standardized ticket categories and subcategories.
